# YOUR OPTIONS

First things first. Do you fold or hang your clothes? Do you want to store your belongings behind doors or in drawers? Do you have a lot of shoes? Do you share your closet with your spouse? No matter how you start your day, Rubbermaid can help make it a little easier.

- A. Colors Available**  
Choose from White, Cherry, Mahogany or Maple finishes. Our color options allow you to match your home's personality and style.
- B. Floor vs. Wall Mount**  
For a true built-in furniture look, chose a Floor Mounted closet system. Wall Mounted systems allow you to vacuum beneath and easily replace carpet.
- C. Double Hanging**  
You'll get twice as much space for shirts, blouses and trousers by choosing a Double Hang configuration.
- D. Long Hanging**  
You need to devote at least 10% of your closet to Long Hanging space for coats and dresses.
- E. Folding vs. Hanging**  
One of the first things to ask yourself in designing your closet is how much space you need for folded clothes vs. those you want to hang.
- F. Drawers**  
Drawers add the look of built-in furniture to your closet plus offer a private solution to organizing your clothes. Available in two styles: raised or flat panels. A full extension option is also available.
- G. Cabinet Doors**  
Conceal folded sweaters or stacks of clothing behind Cabinet Doors giving your closet the look of fine furniture. Available in three styles: raised panel, flat panel or raised panel with a glass insert.
- H. Shoe Shelves**  
Keep shoes accessible and off the floor with our Shoe Shelves. Front fence holds shoes in place.
- I. Shoe Cubbies**  
Shoe Cubbies provide you with another option to organize your shoes and keep them within easy reach.
- J. Hamper**  
Choosing a Hamper makes the most of your space and keeps your laundry out of sight.
- K. Storage Island**  
An Island increases storage while providing "counter space" for folding clothes or a handy place to set things down.

Featured Closet: Walk-in, white, wall mount

# YOUR FINISHING TOUCH

Design professionals always start by making a list. You should, too. Make a list of everything you'll need to store in your custom closets. The less space you have, the greater your need for effective organization.

Simply installing a double hang section, one clothes rod above the other, will increase your storage space for shirts and blouses, skirts and pants. Adding shoe shelves will keep clutter off the floor. Shelf stacks are great for sweaters and folded items. Drawers will protect and organize your personal items.

**A. Base Molding or Kickplates**  
Add the look of a detailed baseboard with our Base Molding option or the clean simple lines of a Kickplate. Both offer a built-in look for your floor-mounted closet.

**B. Crown Molding**  
Crown Molding adds the look of finely detailed millwork, giving your closet an elegant appearance. Two styles are available.

**C. Chrome Wire Baskets**  
Wire Baskets are ideal for pantries or as an economic storage solution for folded items. (Item not pictured)

**D. Belt Rack**  
Belt Racks help maximize storage efficiency and pull out for easy access.

**E. Tie and Scarf Rack**  
Tie and Scarf Rack extends to help you easily find and coordinate your accessories.

**F. Valet Rod**  
Use the extendable Valet Rod to help you plan your wardrobe for the next day.

**G. Jewelry Drawer**  
Our Jewelry Insert features felt-covered compartments of various sizes and shapes for your prized possessions.

**H. Ironing Board**  
Perfect for a laundry room, this option conveniently stores the ironing board until needed. Available only in white.
